

English Homework 13.10.23

A noun phrase includes one noun as well as words that describe it, for example: the black dog. In the classroom, children might be asked to look at noun phrases and turn them into expanded noun phrases, for example changing 'the black dog' to 'the big, furry black dog'.

Please rewrite the sentences below to include a noun phrase. You can write the sentences straight into your homework book.

The car drove down the road.

Slowly, the snail crawled over the path.
